BOREHOLE GEOPHYSICAL LOG

English/Metric units E

SiteID (C1) 425449076354401	**Station name (C12)** CY 289	**Other ID** B-60D3	
County Cayuga	**State** NY	**Log date** 21 Dec 10	**Log time**
Owner GENERAL ELECTRIC CO.		**Project** USEPA Cayuga Site	
Location description Corner of Willow Lane (O'Connor Estates) in curb box			
Latitude 425449.4	**Longitude** 0763544.0	**Lat/Long datum** NAD83	
Altitude LMP	**Altitude datum** NGVD29	**Log measurement point (LMP)** LS	
Height LMP 0.0 ft	**Description of LMP** Land surface		
Borehole depth 203.1 ft	**Borehole diameter** 4 in	**Casing bottom** 15.8 ft	
Casing diameter 4 in	**Casing type** steel	**Source of data** driller	
Logging unit Mid-Atlantic Geosciences	**Log orientiation** MN	**Magnetic declination** -12.4	
Recorded by	**Observed by** DAE		
Fluid type Water	**Fluid depth below LMP**		
Hydrologic conditions Ambient, pump			
Software non-ASCII logs	**Type of log ZZ**		
Tool manufacturer and model	Robertson / Mount Sopris HPFM	**Tool serial number**	
Logging direction	**Logging speed**	**Depth error after logging**	
Log parameter(s) and date(s) of calibration check			

Remarks

Well owned by General Electric Co.; Logged by Mid-Atlantic Geosciences.
Flow meter maybe flooded.
